ANNOUNCING . . .

THE PUBLIC & MAIL BID AUCTION SALE
OF
The FREDERICK S. KNOBLOCH COLLECTION
OF GREEK COINS
JUNE 10, 11, 1970

The Frederick S. Knobloch Collection consists of 46 Gold and Electrum and 626 Silver and Bronze coins, and is the largest collection of quality Greek coins offered in the U.S.A. for sale in the last few decades. It was formed by Frederick S. Knobloch, a collector and dealer of great renown. For the most part this collection was assembled through the years using the finest specimens which Mr. Knobloch encountered.

The collection is remarkable from two points of view. First it covers geographically the whole Greek World, from Spain till Bactria and from Egypt to Mauretania. There are coins from Cities which are lesser known to collectors and many coins seem to be unpublished.

But it is the high standard of preservation of this collection which makes it important, some of the coins having been purchased from Dr. Jacob Hirsch's private cabinet. There are superb series of 25 Tarentian didrachms, Tetradrachms of Agrigentum, Gela, Messana, Leontini and about 25 Tetradrachms of Syracuse, many of them in gem condition. There is the rare Drachm of Athens from the 6th century, known as "Wappenmunz", an Archaic Tetradrachm and 9 others, all in choice condition.

A selected series of Roma-Alexandrian coins include 4 Bronzes of Antinous and many rarities. The large issues are represented by a magnificent Dekadrachm of Carthage.

The excessively rare gold stater showing a ship, of the tribe Menapii is the highlight of the Gallic series. There is a gold Distater and 11 Staters of Alexander the Great, and several rare Electrum coins of Cyzicus.

In addition to the Knobloch Collection, our sale will include a small but prominent collection of the late Mr. Kenneth C. Richmond. It consists of only 4 Gold, 26 Silver, and 3 Bronze coins, but there is hardly a coin which would not be desirable for the most sophisticated collections. There is one of the finest artistic Greek coins, the Tetradrachm of Aenus, showing facing head of Hermes, in Extremely Fine condition, another Tetradrachm with facing head of Helios, of Rhodus almost Uncirculated, and many other Uncirculated Tetradrachms and Staters.

Canadian Sets

672	1938 Proof-like, or Specimen Set. 6 coins from the Cent to the Dollar in what appears to be an official leather case of issue. While official Ottawa Mint records do not indicate that any special sets were struck in this year the coins tell their own story. The silver pieces are exceptionally sharp. The Dollar in particular can almost qualify as a two-tone. PLATE	Rare

Note: This set was listed as Lot 890 in our November 25, 1969, Sale. It was "sold" to an individual living in a small town in Ontario whose name was not familiar. Fortunately, we asked to see the color of his money before we sent his Lots, and never got so much as a word out of him. Thanks to this exercise of foresight we can now offer the same set once again.
